

Our Firewall

James 1:22

But be doers of the word, and not hearers only, deceiving yourselves.

Just as a firewall has different settings, so we also can have different settings on our firewall.

The stricter it is, the safer it is, but also, the less you can do.

1. Hardware Firewall - The Bible

The Holy Bible is like a hardware firewall for a Christian. A physical firewall that defends you against spiritual viruses.

Unless the Word of God is installed properly into you, it doesn't protect you from anything.

The Holy Bible is the instruction manual to God's heart.

Reading the Bible without applying it is like mopping up water without turning the tap off.

2. Software Firewall - The Mind

Your mind is your software and using it properly turns it into a firewall.

The original term of a firewall is meant to keep fire out and keep the people inside safe.

The technological term of a firewall is to keep unwanted infections to the system outside of the system itself and keep it safe.

The spiritual term of a firewall is to keep demonic influence off and keep it out.

3. Cloud Firewall - Jesus

The Lord becomes your WALL OF FIRE where its purpose is no longer just a firewall - to keep foreign invaders out of the city. Its purpose is to burn foreign invaders that get too close to the city.
